The meaning of desert

The meaning of desert

You are always looking for something exciting
You are expecting something splendid and valuable every day

Where can you find such exciting place in this rotten society?
There is no such place in the society

Imagine,
The desert stretches as far as the eye can see
You are now walking in the desert for a long time

There is no fresh water for you to drink anywhere in the desert
Finally, you find a well to quench your thirst with water
When you drink water, you feel the ultimate happiness

Such experience to quench your thirst with water tells you something valuable
Gorgeousness in your heart is originally derived from the thirst which really kills you

Experience something you haven't experienced before
New experience gives you a direction to go forth
